

Call for Participation: Eurohaptics 2016, July 4-7, London, UK

www.eurohaptics2016.org

Eurohaptics is a major international conference on haptics and touch enabled computer applications, and the primary European meeting for researchers in this field. The 2016 conference will be held in central London at Imperial College, close to Hyde Park, the Royal Albert Hall, Kensington Palace, the Science Museum, the Natural History Museum and the V&A Museum.

Eurohaptics 2016 will cover all aspects of haptics, including neuroscience, psychophysics, perception, engineering, computing, interactions, and the arts. We welcome papers across a wide range of topics in fundamental science and engineering, as well as end-application in areas such as medical and surgical simulation, skills training, rehabilitation robotics, collaborative human-robot interactions, communication and haptic feedback for design and the arts.

Eurohaptics 2016 will be held between 4-7 July. The conference will provide researchers from academia and industry an opportunity to present new ideas and establish contacts with colleagues from around the world. An important part of the conference will be the opportunity to demonstrate and experience new haptic hardware and software, and discuss ideas with researchers and developers to gain information about the latest haptic research.

The tentative timeline is as follows:

Papers submission	February 1, 2016	Demonstration proposals	April 20, 2016
Workshops proposals	February 1, 2016	Early registration deadline	May 2, 2016
Acceptance notification	April 4, 2016	Conference	July 4-7, 2016
